

MOBILE GAMING UNITS

UNPLUG FROM THE WORLD INTO A GOOD GAME
TO HELP TURN A BAD DAY AROUND !

GREAT FOR STAFF

This Gaming Cart has a small footprint and it is easy to manoeuvre in tight spaces or congested areas such as Paediatric Wards and Private rooms. It has a simple foot-operated height adjustment for use seated or from the patient bed and the display can tilt, swivel, rotate and extend for optimum viewing.

GREAT FOR PATIENTS

Our ergonomic display mount means users can use the screen in a multiple of positions to suit their viewing experience. They can tilt, swivel, rotate to suit personal preference.

INFECTION CONTROL FRIENDLY

The Gaming Cart has flat surfaces for infection control. The console & all cables are concealed for security & the console is completely ventilated to ensure the cooling down process.

SECURE LOCKABLE DRAWER

A lockable drawer designed to securely house any controllers, headphones, or gaming accessories you need to keep at the bedside
