

# MOBILE GAMING UNITS

[www.therockinr.org.uk](http://www.therockinr.org.uk)

## GREAT FOR STAFF & PATIENTS

The Mobile Gaming Units can be wheeled to the patients bedside, treatment rooms, waiting area's, even isolation wards. These are extremely mobile, with a lightweight design and a small footprint, easy to manoeuvre in tight spaces or congested area's. Four ultra-smooth gliding casters create easy push-pull mobility with two locking casters for stability.

## ERGONOMICS

Designed for all users and applications, both sitting and standing. Ideal for patients that are immobile or have limited access to activities. The Mobile Gaming Unit offers effortless sit-stand height adjustment using patented Constant Force™ technology.

## SAFETY

Tested to UL/EN/IEC and FCC Part 15 Class A specifications for enhanced patient safety. Durable, easy-to-clean exterior composed of aluminium, high-grade plastic and zinc-plated steel promotes infection control.

## SECURE AND LOCKABLE

Includes lockable and ventilated storage for the gaming console and controllers, with heavy-duty keys and locks.

Additional storage can be added to the rear of the Mobile Gaming Unit by adding the optional lockable Backpack storage box.
